- 4) **Early Migrants.** Presented by Baird Ornithological Club at Union Meadows Park on April 18th, 8:00 am. This is a very popular venue for birders eager to get out in the early spring and observe a number of perching birds passing through on their way to final nesting destinations at higher altitudes. Look for migrant warblers, thrushes, sparrows, vireos and other songbirds that travel northward along this riparian corridor. Rusty Blackbird has consistently been found here in late winter and spring. Walks here typically record high species counts. This event begins with quite a chill in the air but when the April sun burns off the mist, it ends up being balmy; dress in layers. For additional details contact the coordinator-Art Zdancewic 610-858-3315.
- 5) Baird Ornithological Club is also presenting another walk at Union Meadows on March 15th, 7:00 pm. Listen for and try to glimpse the crepuscular American Woodcock as it performs its courtship flights. For additional details contact the coordinator – Jay Kline 610-858-5130.
- 6) **Wildflowers and Pollinators at Union Meadows West.** Presented by Mengel Natural History Society at Union Township's Butterfly Meadows, July, 18th at 10:00 am. A meandering path through this pollinator meadow provides good access for observing and netting a variety of species. All levels of interest are welcome: children, adults of all ages, novices and advanced. *Close focusing binoculars and a camera will be helpful. For a good look we will capture some insects and put them in viewing jars so you can get a close look before releasing them.
