HYDRANT FLUSHING NOTICE

The Union Township Municipal Authority will be flushing the fire hydrants in Buckingham Preserve sometime during week of October 6, 2025 between the hours of 9:00am – 4:00pm. The flushing will be completed in two days.

During the flushing process, you may experience a temporary decrease in water pressure and some discoloration of the water. This does not represent a health hazard. However, customers are cautioned to determine if the water is clear before washing clothes (or any other process as staining may occur). If you experience discolored water, we suggest you run the cold water in all your faucets for approximately 10 to 15 minutes prior to use.

The Union Township Municipal Authority regrets any temporary inconvenience that you may be experience, however the flushing is necessary to maintain a good water supply for both firefighting and domestic consumption.

If you have any questions, please contact us at the number and extension listed at the top of this letter.

We thank you in advance for your cooperation.

Union Township Municipal Authority.
